Career Objective

Full-Stack Developer with hands-on experience in building web applications using React.js, Node.js, Express.js, and MongoDB. Strong foundation in RESTful APIs, authentication, and scalable backend development, with additional exposure to AI-driven systems, LLM workflows, and agent-based architectures. Seeking to grow as a full-stack engineer while applying modern AI capabilities in real-world products.

Work Experience

Jr. Full Stack Developer

Dec 2025 – Present

Excellence Technologies

Noida

- Developing end-to-end web applications using React.js, Node.js, Express.js, and MongoDB.
- Building secure REST APIs and integrating backend services with frontend features.
- Optimizing performance, code quality, and scalability using best engineering practices.
- Collaborating with cross-functional teams using Git-based workflows.

Front-End Development Intern

Nov 2024 – Jan 2025

CodeXintern

Noida (Remote)

- Built responsive React.js interfaces using modern JavaScript (ES6+).
- Improved application performance and component reusability, reducing load time by 20%.
- Collaborated in Agile teams and performed component testing.

Skills

- **Frontend:** HTML, CSS, JavaScript (ES6+), React.js, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, Python, Flask, FastAPI
- **Databases:** MongoDB, MySQL, SQLite
- **AI Exposure:** RAG, LangGraph, Prompt Engineering, Chain-of-Thought, ReAct
- **Auth & Security:** JWT, Role-Based Access Control, Multi-Tenancy
- **Tools:** Git, GitHub, Cursor, Claude Code, Bash

Projects

- **AI-Powered Knowledge Assistant (RAG System)** – Built a Retrieval-Augmented Generation system for document-based Q&A with authentication, chat history, and admin monitoring. Implemented document chunking, embeddings, vector retrieval, and context-aware responses. [GitHub]
- **Shop-Keep (Autonomous E-Commerce Platform)** – Developed an AI-driven e-commerce system where a LangGraph agent autonomously researches products, downloads assets, updates MongoDB inventory, and verifies UI functionality using browser automation. [GitHub]
- **Multi-Tenant Project & Task Management SaaS** – Built a production-grade SaaS platform with multi-tenancy, JWT authentication, RBAC, project and task management, Kanban boards, time tracking, billing, notifications, and analytics dashboards.
- **Prompt Engineering & Reasoning Lab** – Developed a web-based lab to experiment with advanced prompting techniques including System/User/Developer prompts, Chain-of-Thought, Self-Consistency, ReAct, Tree-of-Thoughts, prompt injection attacks, optimization, and versioning. [GitHub]

Education

B.Tech in Electronics and Communication Engineering

2021 – 2025

Maharaja Agrasen Institute of Technology, Delhi

CGPA: 7.63/10

Senior Secondary (XII), CBSE

2021

Army Public School, Delhi Cantt

84.40%

Trainings & Certifications

- Full Stack Development – Internshala (React, Node.js, Express.js, MongoDB)
- Git and GitHub: Mastering Version Control – Internshala
- HackerRank: Certified Front-End Developer
- TuteDude: Certified React Developer
